

Contact Us

Contact Akos for full-service IT support with remote monitoring and management of client applications, workstations, servers, switches, firewalls, networks, and databases. Our state-of-the-art monitoring technology proactively maintains computer networks, servers, and desktops in a completely non-intrusive manner.

Akos can resolve most issues before clients even realize there is a problem. Our services are available in a budget conscious, fixed cost format.

Akos' enterprise level 24/7 Single Point of Contact (**SPOC**) Help Desk and Network Operations Command Center (**NOCC**) completes a TOTAL end-to-end IT solution for any size company.
